The history of the company Bagno Più embodies a long tradition of small scale Italian furniture workshops. Carefully manufactured out of natural components our products inherit the quality mastered by generations of local craftsmen. Our collections continue and develop this lineage of traditional craft and style. By working in close connection with the local producers our design team strives to continue the story of this distinguished European craft. Adhering to the standards and principles of artisanal production we use natural and durable materials such as timber, Italian marble and ceramics. Made primarily out of solid wood our furniture serves through decades and besides for the outstanding quality speaks with the beauty of nature.

La storia della compagnia Bagno Più incarna le vecchie tradizioni delle piccole falegnamerie dei mobili italiani. I nostri prodotti, realizzati con cura da componenti naturali, ereditano la qualità che possiedono le generazioni di artigiani locali. Le nostre collezioni continuano a sviluppare questa tradizione di artigianato e dello stile tradizionale. Il nostro team di designer, lavorando a stretto contatto con i produttori locali, cerca di continuare la storia di questo eccezionale mestiere europeo. Rispettando agli standard e principi della produzione artigianale, utilizziamo materiali naturali e resistenti come legno, marmo italiano e ceramica. I nostri mobili, realizzati principalmente in legno massello, dureranno per decenni e vi rallegreranno con la loro bellezza e con l'unicità dei materiali naturali regalati dalla natura.

Mastery of design Maestria del design

The unique style of Bagno Più has been gradually developing since 1985. Started as a company producing wooden bathroom furniture of classical design, we have expanded our model range rethinking traditional forms. As for today, we are only producing the classical models that in our opinion truly represent the pure tradition of Italian handcrafted furniture. On the other hand, the modern collections by Bagno Più allow our customers to create and explore the ambiance of the bathroom while not being limited by a single style.

Lo stile unico di Bagno Più, gradualmente evoluto, si sviluppa dal 1985. A partire dalla produzione di mobili in legno per bagno di design classico, abbiamo ampliato la nostra gamma di modelli, ripensando alle forme tradizionali. Abbiamo conservato nella nostra linea di mobili solo quelle collezioni classiche, che, a nostro avviso, sono una continuità pura di tradizione della produzione di mobili artigianali in Italia. A sua volta, la collezione moderna del marchio Bagno Più permette ai nostri clienti di realizzare l'arredamento del bagno con i nostri mobili in qualsiasi stile.

The image shows a highly detailed and ornate ceiling, likely from a classical or baroque interior. The ceiling features a large central circular fresco (tondo) depicting a scene with figures and a central figure holding a staff. The fresco is surrounded by intricate gold leaf carvings and scrollwork. Below the ceiling, a large, multi-tiered chandelier with numerous crystals and candles hangs from the center. The walls are also decorated with relief sculptures and architectural details.

Classical console Versailles stands on the intersection of various styles inspired by French palace aesthetics. In addition to the vanity unit, this collection consists of a tall cabinet and a side table.
